

DAS_{for}World

With an elegant, effortless web interface and premium integration to JD Edwards World, DAS for World provides a superior reporting experience. Effortlessly bring green screens to life, resulting in brilliant, luminous reports and interactive mobile dashboards.

Benchmark Reporting

- Inherit JDE features: date and currency formats, associated descriptions, visual assists, and more
- Access JDE database without straining your system
- Protect the integrity of your data with JDE-native row security
- Compatible with all versions of JD Edwards

Whole Nine Yards

- Design reports and dashboards for real-time consumption
- Schedule and distribute reports via email
- Take advantage of hundreds of pre-built templates
- Undergo comprehensive, web-based training at your own pace
- Use data from World, Oracle, SQL, DB2, and many others

Effortless Yet Robust

- Works on every JDE table and custom tables
- Create reports in business terms instead of technical acronyms
- Utilize a financial report building wizard for expedited processes
- Sift through all JDE data using an intuitive search engine
- Deploy built-in drilldowns out of the box and create custom drilldowns

Modernize Your Reporting World

DAS for World empowers business users to easily create queries, operational reports, and fully interactive analytics. Query, link, and combine information from many data sources with DAS to alleviate the burden on IT and overall infrastructure. Your reporting will be revamped to include:

- Visually stunning outputs that merge rich text and visualizations on an uncomplicated design surface
- Pixel perfect dashboards that unearth a powerhouse of business narratives
- Efficiently automate report distribution utilizing multiple formats
- Snappy processes that do not need advanced technical skills
