DAS8

DAS8 is an all-in-one, JDE-centric reporting and business intelligence solution that boasts the entire spectrum of report building and distribution capabilities. DAS8 is the premier platform by which all JDE solutions are measured. DAS8 brings an added level of sophistication to any business document for stunning enterprise-level report outputs.
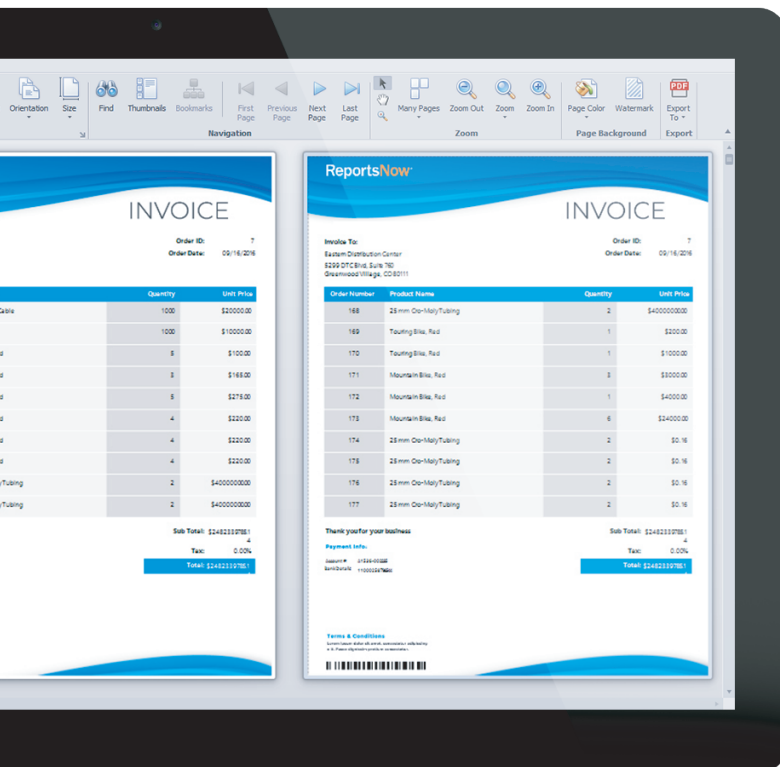

Innately Intuitive

- Easy to learn and use, yet all the power needed by IT
- Centralized queries, report design, and scheduling
- Dozens of advanced calculations with a simple point-and-click
- Render Excel reports dynamic, while remaining SOX compliant
- Automatically inherited JDE security, formatting, and visual assists
- Interactive dashboards without cubes
- Insert dashboards into E1 pages and E1 apps

Unmatched Data Access

- Query and report against both JDE or non-JDE data (Excel, SQL, Access, Oracle, DB2, cloud apps)
- Slice and dice data from any source on a single report fully interactive dashboard
- Completely automate report distribution (email, bursting, network folders, mail merge, and the Web)
- A ProReports tool to merge rich text and visualizations on an intuitive design surface for vivid printouts
- Dashboards consumable on any machine or device

The Complete Reporting and BI Spectrum

DAS8 combines industry-best ease-of-use and sophistication to offer the full spectrum of report development. Our users are both business analysts and IT professionals of all levels who create real-time reports and superb, interactive dashboards in minutes.

- The only reporting and BI solution that sits natively atop JDE with a one-hour install
- Create complex logic by combining multiple functions into a single calculation, without coding
- Add dynamic hyperlinks to reports for customizable drilldowns
- Data from multiple applications in a single, centralized location
