

Program Description

This course teaches advanced calculations as well as how to use the power of variables in your reports. Students will learn how to perform a drill-down into a sub-report, create a master report bringing back data from a sub-report, and generate a driver report to burst a distributed sub-report via email or to an output directory. Scheduling reports and configuring output formats for email distribution will also be covered.

COURSE DETAILS

Duration: 1 day

Prerequisites: DAS Basics & DAS Intermediate

Field of Study: Computer Software & Applications

Advanced Preparation: None

Program Level: Advanced

Group Live

CPE Credits: 6.5

- Custom Virtual Instructor-Led
- In-Person Group Instructor-Led

Audience

Intended for experienced DAS users who want to leverage advanced features, complex calculations, automation, and performance optimization to maximize their reporting capabilities.

Learning Objectives

Upon successful completion of this course, you will have the ability to:

- Apply advanced calculations
- Format calculations using the formula editor.
- Build reports using report variables
- Automate reporting tasks.

Ready to schedule a class?

Contact your Reports Now Account Manager or fill out the [interest form](#) on our website. For questions, email sales@reportsnow.com

Attendance & Completion

To obtain CPE credit, participants must attend at least 90% of the instructional time. Attendance is tracked via sign-in records (in-person) or login reports (virtual). Polling questions are administered throughout, and participants must respond to at least 75% of them to receive credit.

Cancellations, Refunds and Complaints

Reports Now's cancellation and refund policy appears on the Product Schedule executed by your company regarding the specific classes offered. Participants may submit complaints via email at sales@reportsnow.com or through our website at www.reportsnow.com/about-us/contact-us/.

DAS Advanced Agenda

1. Advanced Calculations
2. Formulas
3. Variables and Real-world Examples
4. Bursting Calculation
5. Drill Downs, Bring Backs and Distribution Burst
6. Report Automation
